

## BNL Photochromic

The Photochromic range from BNL Eurolens, Essilor Group, will protect the eyes and guard against the threat of the sun's rays every time, everywhere and in every condition. Our Active Cell Technology is scientifically formulated to change from light to dark in just a few seconds providing the right level of protection when needed. Fashion, Urban or Sport sunglasses, BNL Photochromic lenses are the answer for:

- Maximum protection
- Convenience
- High photochromic performance
- Fast darkening and fading
- Durability
